## National Terrorism Advisory System Current Alerts

# SITUATION SUMMARY

- SOC / Inland REOC remains activated in support of 2014 Drought

## Southern California

### **Pine Incident - Vegetation Fire, Los Angeles County, Hwy 138 and Cement Plant Road East of Gorman, SRA (Final)**

Per the Cal OES FDO and CALFIRE on 3/15/2014 at 1800 hours:

- The fire has burned 109 acres and is 85% contained
- No additional resources ordered or anticipated at this time
- No reported structure threat or loss, and no current evacuation orders
- CAL FIRE ground resources released

### **Pierce Incident - Vegetation Fire, Riverside County, Avenue 66 X Pierce, Thermal, LRA (New/Final)**

Per CAL FIRE on 3/16/2014 at 0902 hours:

- The fire has burned 350 acres and is 100% contained
- CAL FIRE air and ground resources released
- Structure threat mitigated
- CA-Hwy 86 reopened

## Significant Weather

- There are no current Watches or Warnings in effect for California

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

High pressure will result in warm and dry weather today although coastal clouds are expected. Rain chances will return tonight as a cold front quickly moves across Northwest California. High pressure and offshore flow will return early next week.

#### **San Francisco Weather:**

Sunny and warm weather will continue for most of the San Francisco Bay Area on Sunday, but coastal areas may cool some as onshore flow returns by afternoon. Cooler and locally breezy conditions are forecast on Monday after a dry cold front moves through the area. Dry weather is expected to continue through the end of the week and into next weekend as the storm track remains north of California.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Warm and dry weather is expected today under a high pressure system. A weak system passes to the north on Monday with the primary impact being breezy north winds Monday through Tuesday. Another weak system passes to the north late in the week.

#### **Hanford Weather:**

Few clouds and above normal temperatures will continue through next week. Near record high temperatures are expected throughout the San Joaquin Valley on Sunday. Breezy to windy conditions are possible on Monday afternoon and evening due to a dry low pressure system.

## **Weather (Cont.)**

### **WEATHER SYNOPSIS BY REGION: (Cont.)**

#### **SOUTHERN CALIFORNIA:**

##### **Los Angeles Weather:**

Upper level high pressure and weak offshore flow will result in another very warm day across the region. Significant cooling is expected on Monday as an upper trough moves into the West Coast. A round of gusty winds will likely affect portions of the Los Angeles region Monday night and Tuesday behind a dry frontal system. Additional cooling is likely during the middle and end of next week with daytime temperatures down to near normal levels in most areas.

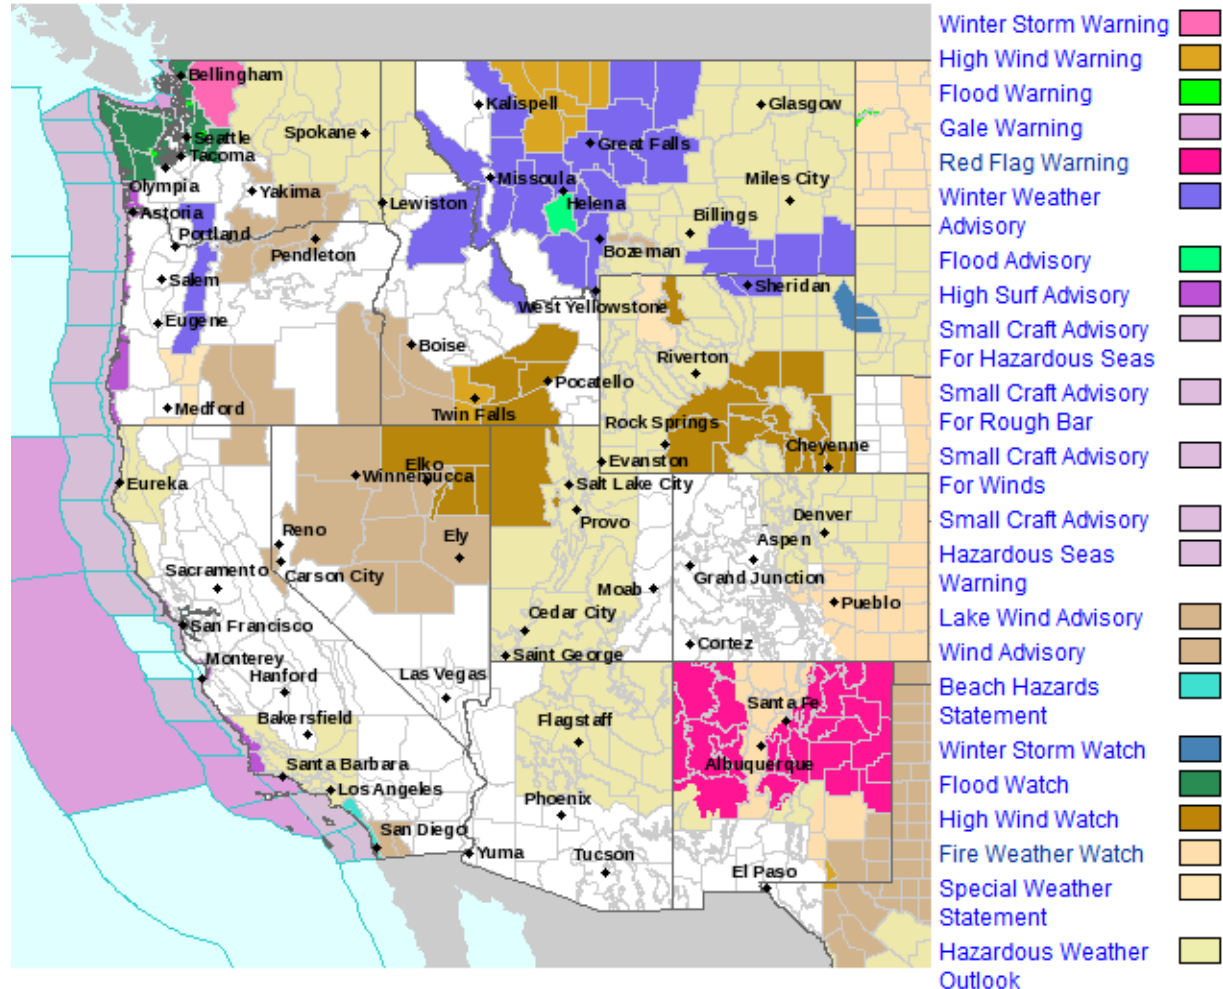

##### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

High pressure aloft will bring warming today with surface high pressure over the Great Basin bringing gusty northeast winds near the coastal foothills. A trough of low pressure moving inland to the north will bring stronger onshore flow for late Monday into Tuesday with cooling, a return of night and morning coastal low clouds and fog, and gusty west winds in the mountains and deserts. Weaker onshore flow will prevail for the rest of the week with temperatures slightly above average.

##### **Southeast California Weather:**

Sunny skies and well above normal temperatures will persist through Sunday. A cold front will approach Southeastern California on Monday bringing gusty wind conditions to the region. By mid-week temperatures are expected to drop due to the passage of the cold front, but a return to above normal conditions is expected by the end of the week.

# **CAL OES ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **SIGNIFICANT EVENTS / ACTIVITY**

### **Cal EOC Incident – 2014 Drought**

Information as of 3/14/14

#### **Situational Summary: (No Change)**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

Despite above average rain and snow in February and early March, much of California has received only about 50% of normal precipitation. Heavy rain and snow would have to fall throughout California very frequently from now until May to reach average annual rain and snowfall levels. Even with such precipitation, California would remain in drought conditions, due to low water supplies in reservoirs from the two previous dry years. The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- The Drought Task Force is scheduled to meet on March 28, 2014 in Shasta County. The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

## **Cal EOC Incident – 2014 Drought (cont'd)**

Information as of 3/14/14

### **Situational Summary: (Cont.)**

- The State Water Resource Control Board (SWRCB) staff participated in the Small Systems Inter-Agency Outreach Committee meeting USDA Rural Development, California Water/Wastewater Agency Response Network and Rural Community Assistance Corporation on March 5, 2014.
- The recent snowpack survey conducted on 3/12/14, recorded California snowpack at 29% of normal. The statewide snowpack as of March 6 indicates a snow water content of 33 percent of average to date and 30 percent of the April 1 average.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- On March 27, 2014, SWRCB will be at the groundbreaking ceremony for the City of Visalia's \$147 million Water Conservation Plant upgrade and recycled water distribution pipeline, made possible by an earlier CWA SRF loan from the State Water Board.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

## Current Drought Updates:

- 2014 Drought Response Report will be updated again on 03/17/14 unless the situation warrants.

### **Declarations/Resolutions/Proclamations: (No Change)**

#### **State:**

01/17/14 – January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

# **CAL OES MISSIONS**

## **Drought Related Missions**

- **2014-Inland-2185** Tuolumne County does not have a water master or any alternative resources to assist in determining the health of their ground water system. The County is requesting state agency expertise to assist with this determination.

## **New Cal OES Missions**

- **2014-LAW-2514** Calaveras County SO (CCSO) conducting joint training with Contra Costa SO, National Ski Patrol, and Alpine County SO in the Bear Valley Ski Resort. Drill will include locating an avalanche beacon at high altitude. **UPDATE** 3/15/14 2145 hours: CCSO SAR training is complete. All SAR personnel released to return to home station. No injuries reported. **Mission Closed**

## **Ongoing Cal OES Missions**

- **2014-SREOC-2453** On 3/5/2014, San Bernardino County Fire OES is requesting communications support for Baker to Vegas Challenge Cup Relay on March 20, 2014. Cal OES T-Comm representative is coordinating the required resources.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

# **UPCOMING EVENTS, TRAINING, EXERCISES**

## **Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise**

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

## **2014 Golden Guardian**

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Rehearsal of Concept Drill - April 2, 2014
- REOC Communications Functional Exercise - March 27, 2014

## **The Tsunami Warning Communications Test**

Live code, activating EAS will be on the North Coast in Del Norte, Humboldt, Mendocino Counties on Wednesday 3/26/14 (between 11:00 and Noon PDT).

- Del Norte County will be asking residents of the community to participate in a full evacuation exercise on March 26<sup>th</sup> between 1100 – 1300 hours PDT.

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
